Appendix H – Project Safe Neighborhoods (2003).	56

INTRODUCTION

Dear Colleague:

For many years the New Hampshire Department of Justice has had the distinction of receiving the Governor's selection as the state-administering agency for several federal grant initiatives. These grant initiatives have been pivotal in the creation of many innovative criminal justice projects around the state, which have enhanced the service delivery of the state's criminal justice system.

Generally, the grant funding that is received and administered by the Department of Justice to the State of New Hampshire from the federal government arrives in one of two forms: 1) formula grants – funding is allocated to each state based on a statistical equation, such as population data or violent crime statistics; or 2) discretionary grants – funding is successfully secured in a competitive application process for a specific program area. There is also very limited funding available from state resources to assist service programs for victims of violent crime.

The funding is sub granted to state and local agencies through specific sub grant application processes at varying times of the year, depending on the purpose, guidelines and conditions of the federal grant program. A relatively small portion of the funding is retained by the Department of Justice for administration expenses.

While this document does not contain information on all possible federal grant resources, I believe that it will be a helpful start in your grant funding research. Please feel free to contact my staff in the Grants Management Unit if you have any questions concerning the material contained in this document.

Kelly A. Ayotte
Attorney General

MISSION STATEMENT

The Grants Management Unit of the Department of Justice exists to make a difference in the lives of the citizens of New Hampshire by ensuring the proper use of federal funds for criminal justice purposes. The Grants Management Unit does this through:

- the professional administration of grant resources;
- the adherence to all underlying federal and state requirements;
- the coordination of federal criminal justice resources available to the state; and
- efficient service and assistance.

**EDWARD BYRNE MEMORIAL STATE AND LOCAL LAW
ENFORCEMENT ASSISTANCE FORMULA GRANT PROGRAM**

FY 2000 Funds: \$3,076,361

FY 2001 Funds: \$3,101,368

FY 2002 Funds: \$3,052,472

FY 2003 Funds: \$3,087,951

FY 2004 Funds: \$2,986,870

Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program (“Byrne Formula Grant Program”) is authorized by Title I of the Omnibus Crime Control and Safe Streets Act of 1968, 42 U.S.C. 3711 et seq., as amended. The Bureau of Justice Assistance, Office of Justice Programs, U.S. Department of Justice is designated to administer this grant to the States. The Governor has designated the Department of Justice to administer this program for the State of New Hampshire.

Each State’s annual grant entitlement under the Byrne Formula Grant Program is determined by a modified population-based formula to the total amount of the appropriation. To receive grant funds, each State must develop a strategic, multiyear violence prevention and drug control strategy to demonstrate that funds will be used in accordance with the purposes of the law.

There are 28 legislative purpose areas that define the nature and scope of programs, which might be funded under the Byrne Formula Grant Program. New Hampshire’s statewide strategy has concentrated on the following areas: 1) Demand reduction education programs; 2) Multi-jurisdictional task force programs; 3) Juvenile/Community Crime Prevention Programs; 4) Criminal Justice Records Improvement; and 5) Alternatives to Incarceration.

The Byrne Grant Program has funded a variety of programs, such as: the New Hampshire Multi-jurisdictional Task Force, Mentoring Programs, Youth-at-Risk Crime Prevention Programs, and Criminal History Records Improvement Projects. Please refer to Appendix A for a complete list of subgrant awards for federal fiscal years 2000 – 2004.

VICTIMS OF CRIME ACT CRIME VICTIMS ASSISTANCE FORMULA GRANT

FY 2000 Funds: \$1,981,000

FY 2001 Funds: \$1,947,000

FY 2002 Funds: \$2,040,000

FY 2003 Funds: \$1,920,000

FY 2004 Funds: \$1,933,000

The Victims of Crime Act of 1984 (VOCA), 42 U.S.C. 10601, et seq., as amended, designated the Office of Victims of Crime (OVC) as the bureau within the Office of Justice Programs, U.S. Department of Justice to administer this formula grant program to the States. The Governor has designated the Department of Justice to administer this program to this State.

The funding mechanism for this program is the federal Crime Victims Fund, which is derived from fines, penalty assessments, and bail forfeitures collected from federal criminal offenders, not taxpayers. The main objective of this grant program is to support programs providing services to crime victims, stimulate State participation and support for victim programs and promote victim cooperation with law enforcement.

This grant program identifies sexual assault, spousal abuse, and child abuse programs to be given priority. This priority status requires that each of these areas receive a minimum of ten percent of the total State victims' assistance award. The New Hampshire Department of Justice is further required to award ten percent of the total State grant award to previously underserved populations of victims of crime. (i.e., survivors of homicide victims, DUI/DWI victims and survivors of those victims, victims in rural areas, etc.). OVC also allows the grantee States to determine their own underserved populations, as the State is in the best position to justify an underserved population in need of direct services. Up to 1% of the funds may also be used to support victim assistance training activities.

Generally, in New Hampshire, these grant funds have been awarded to agencies providing direct services to victims of domestic and sexual abuse, child and adult incest, child and adult sexual assault and other programs designed to assist victims of violence and trauma. The Department of Justice has partnered with the New Hampshire Coalition Against Domestic & Sexual Violence as a conduit agency to fund its fourteen victims services agencies, supporting victim services through 23 offices and crisis shelters throughout the State. In addition, the Department of Justice subgrants funding to other victim services programs such as Court Appointed Special Advocates, Victim-Offender Mediation, District Court Victim Advocates and rural mental health agencies. Grant funds have also been used to enhance the health, safety and handicap accessibility of crisis shelters and to enhance the security and technology infrastructure of victim services offices. Training efforts have been leveraged through combining efforts with the States of Maine and Vermont for advanced victim advocate training and, in cooperation with Maine, on the ongoing development of a basic victim advocate training academy. Please refer to Appendix B for a complete list of subgrant awards for federal fiscal years 2000 – 2004.

**VICTIMS FOF CRIME ACT
CRIME VICTIMS COMPENSATION GRANT PROGRAM**

FY 2000 Funds: \$ 66,000

FY 2001 Funds: \$ 28,000

FY 2002 Funds: \$ 62,000

FY 2003 Funds: \$200,000

FY 2004 Funds: \$211,000

In addition to the Crime Victims Assistance Grant Program, the Victims of Crime Act of 1984 (VOCA), 42 U.S.C. 10601, et seq., as amended, also designated the Office of Victims of Crime to administer this formula grant program. This program is also funded through the Crime Victims Fund. The Department of Justice is designated by the Governor to administer this program. In addition to grant funds, New Hampshire's victims' compensation program receives a majority of its funding from State motor vehicle and criminal penalty assessments or fines.

The victims' compensation program in New Hampshire consists of the Victim Compensation Coordinator and the New Hampshire Victims' Assistance Commission who work to help innocent victims of violent crime with expenses directly relating to crime injuries as authorized under NH RSA 21-M:8-h. The Coordinator reviews claims and makes recommendations to the Commission. The Commission, consisting of five members including a physician, an insurance professional, a victim, an attorney, and a mental health provider, meets monthly and makes the final decision regarding all payment issues.

The compensation program helps 1) any person who sustains physical and/or mental injuries in a felony (misdemeanors will be included as of 07/01/97) which occurred in NH on or after 11/02/89; 2) any person who sustains personal injury as a result of persons driving under the influence of alcohol or controlled substances in NH on or after 11/02/89; 3) immediate family members of a homicide victim who was killed on or after 11/02/89 in NH; 4) any person who is a victim of sexual abuse, which occurred in NH and is under the age of 18 at the time the claim is filed, regardless of when the crime occurred; and 5) NH residents injured by any of the above crimes in a State without a compensation program. Furthermore, the Antiterrorism and Effective Death Penalty Act of 1996 provides that crimes involving terrorism shall also be included as a compensable crime.

Compensation includes medical, dental, and mental health counseling expenses; lost wages; loss of support for the dependents of homicide victims; funeral and burial costs for homicide victims; and other out-of-pocket expenses such a moving expenses, property damage/clean-up for security purposes, transportation to obtain medical assistance and attorney fees for purposes other than applying for compensation or filing suit.

S*T*O*P VIOLENCE AGAINST WOMEN FORMULA GRANT

FY 2000 Funds: \$ 952,000

FY 2001 Funds: \$ 950,000

FY 2002 Funds: \$1,032,000

FY 2003 Funds: \$1,028,000

FY 2004 Funds: \$ 968,000

The authorization for the S*T*O*P Violence Against Women Formula Grant Program (VAWA) comes from the enactment of Title IV of the Violent Crime Control and Law Enforcement Act of 1994, Pub. L. No. 103-322; the Violence Against Women Act of 2000, enacted as Division B of the Victims of Trafficking and Violence Protection Act of 2000, Pub. L. No. 106-386; and the STOP Violence Against Women Formula Grant Program Regulations, 28 C.R.F. Ch. 1 §90.1-90.24. The Violence Against Women Grants Office, Office of Justice Programs administers the program out of the U.S. Department of Justice. The Governor has designated the Department of Justice to administer this program to the State of New Hampshire.

The objective of this grant is to assist States, Indian tribal governments, and units of local government to develop and strengthen effective law enforcement and prosecution strategies to combat violent crimes against women and to develop and strengthen victim services in cases involving crimes against women. States must certify that a minimum of 30 percent of the total grant award is allocated to victim services; 25 percent to law enforcement; 25 percent to prosecution and 5 percent to the Courts.

Generally, the State of New Hampshire has awarded VAWA grant funds in three (3) areas. First, programs have been funded that have lead to the creation of specialized domestic violence and sexual assault units, combining the roles of law enforcement, prosecution and victim services. In this regard, grant awards have been given to fund prosecutorial positions, victim-witness advocate positions, investigator positions, and probation/parole officer positions. Second, grant funds have been awarded to agencies that provide direct services to victims and emergency legal representation, such as the New Hampshire Coalition Against Domestic and Sexual Violence, Sexual Assault Support Services and the New Hampshire Bar Association. Third, grant funds have been expended on programs that provide training and coordination on a statewide basis such as the Administrative Office of the Courts. Please refer to Appendix C for a complete list of subgrant awards for federal fiscal years 2000 – 2003.

CHILDREN'S JUSTICE ACT GRANT

FY 2000 Funds: \$ 76,656

FY 2001 Funds: \$115,142

The Victims of Crime Act of 1984, as amended by the Children's Justice Act (CJA) and the Violent Crime Control and Law Enforcement Act of 1994, provides that a certain portion of funds deposited in the Crime Victims Fund in any fiscal year will be made available to the Department of Health and Human Services for CJA grants to the States. The Department of Justice has been designated to serve as fiscal agent for this program.

Grants are to be used to develop, establish and operate programs designed to improve:

1. Handling of child abuse and neglect cases, particularly cases of child sexual abuse and exploitation, in a manner, which limits additional trauma to the child victim;
2. Handling of suspected cases of child abuse or neglect related fatalities; and
3. Investigation and prosecution of cases of child abuse and neglect particularly those cases of child sexual abuse and exploitation.

The CJA grant requires each State to maintain a multidisciplinary Task Force whose purpose is to implement recommendations in the following three categories:

1. Investigative, administrative and judicial handling of cases of child abuse, neglect, sexual abuse, exploitation and abuse related fatalities;
2. Experimental, model and demonstration programs for testing innovative approaches and techniques, which may improve the prompt and successful resolution of civil and criminal court proceedings or enhance the effectiveness of judicial and administrative action in child abuse cases; and
3. Reform of State laws, ordinances, regulations, protocols and procedures to provide comprehensive protection for children from abuse.

The Attorney General's Task Force on Child Abuse and Neglect currently is comprised of 35 professionals from throughout the State representing the following disciplines: law enforcement, defense, prosecution, civil and criminal court, medical and mental health, CASA, education, parent groups, and children with disabilities. Task Force projects include: Annual Conference on Child Abuse, advanced multidisciplinary and discipline specific training, interviewing facility set up, publication of a newsletter and court brochures for children and teens, protocol survey and Child Fatality review Committee coordination.

ENFORCING THE UNDERAGE DRINKING LAWS GRANT PROGRAM

FY 2001 Funds: \$359,208

FY 2002 Funds: \$360,000

FY 2003 Funds: \$357,660

FY 2004 Funds: \$356,211

The Enforcing Underage Drinking Laws Grant Program is a formula grant program administered through the Office of Juvenile Justice and Delinquency Prevention, Office of Justice Programs, U.S. Department of Justice.

The Appropriation Act for the Department of Commerce, Justice, State and the Judiciary, and Related Agencies for the fiscal year ending September 30, 2001, and for other purposes (Public Law 106-553, December 31, 2000), appropriated \$25 million to the Office of Juvenile Justice and Delinquency Prevention (OJJDP) to support and enhance State efforts, in cooperation with local jurisdictions, to enforce laws prohibiting the sale of alcoholic beverages to, or the consumption of alcoholic beverages by, minors.

The Department of Justice worked in conjunction with the Attorney General's Combating Underage Drinking Task Force to develop a strategy for the use of these funds. Grant funds from this grant program will be utilized to support the implementation of increased enforcement and education activities by law enforcement in communities around the State. Please refer to Appendix D for a complete list of subgrant awards for federal fiscal years 2000 – 2004.

YOUTH OFFENDER PROGRAM

FY 2000 Funds: \$33,152

FY 2001 Funds: \$45,582

FY 2002 Funds: \$37,193

FY 2003 Funds: \$42,695

The Grants to States for Workplace and Community Transition Training for Incarcerated Youth Offenders Program (Youth Offender Program) is designed to provide grants to State correctional education agencies to assist and encourage incarcerated youths to acquire functional literacy, life and job skills, through the pursuit of a post-secondary education certificate, or an associate of arts or bachelor's degree while in prison and employment counseling and other related services that start during incarceration and continue through pre-release and while on parole or during release. The U.S. Department of Education administers the program.

Specifically, through this formula grant program, the State correctional education agencies will use Federal funds to provide postsecondary education, postsecondary vocational training, and related services to "youth offenders" up to age 25, who are incarcerated in a State prison, including a pre-release facility, and are eligible for parole or release within five years.

These funds are awarded to the Department of Corrections. These funds will be utilized for tuition, books and related materials for students enrolled in New Hampshire Technical College and New England College courses at New Hampshire State Prison for Men and New Hampshire State Prison for Women.

RESIDENTIAL SUBSTANCE ABUSE TREATMENT FOR STATE PRISONERS

FY 2001 Funds: \$314,244

FY 2002 Funds: \$349,605

FY 2003 Funds: \$326,564

The Violent Crime Control and Law Enforcement Act of 1994, Pub.L. 103-322, amended Title I of the Omnibus Crime Control and Safe Streets Act (42 U.S.C. 3711, et seq.) by adding 42 U.S.C. Section 3796 ff – Residential Substance Abuse Treatment for State Prisoners. The Residential Substance Abuse Treatment Formula Grant Program assists States and units of local government in developing and implementing residential substance abuse treatment programs within State and local correctional and detention facilities in which prisoners are incarcerated for a period of time sufficient to permit substance abuse treatment. The program is administered by the Bureau of Justice Assistance, Office of Justice Programs, U.S. Department of Justice. The grant award is made to the State office that is designated to administer the Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program, which is the Department of Justice.

The Department of Justice utilizes these funds to support two programs in the State. The New Hampshire Department of Corrections Residential Substance Abuse Treatment Program at the Lakes Region Facility in Laconia and the Division for Juvenile Justice Services, Adolescent Drug and Alcohol Program (ADAP) at the Youth Development Center in Manchester, the States only juvenile detention facility. The Residential Substance Abuse Treatment Program is a three-level standardized residential drug and alcohol treatment curriculum offered at all state prison facilities. The ADAP program is an intensive juvenile substance abuse treatment program. With a high percentage of juveniles entering the Youth Development Center with substance abuse issues, the program provides a treatment option for those juveniles who are ready to address these substance abuse issues.

VIOLENT OFFENDER INCARCERATION TRUTH-IN-SENTENCING INCENTIVE GRANTS

FY 1996 to FY 2001 Funds: \$14,115,258

The Violent Crime Control and Law Enforcement Act of 1994, as amended, Pub.L. 103-322, Title II, Subtitle A, created the Violent Offender Incarceration and Truth-in-Sentencing Incentive Grant Program (VOI/TIS). The program is administered by the U.S. Department of Justice, Office of Justice Programs, Bureau of Justice Assistance. This program funding is available to States as formula grants to build or expand permanent or temporary correctional facilities, to increase bed space for the confinement of adult violent offenders and for nonviolent offenders and criminal aliens to free space for violent offenders as well as to build or expand juvenile correctional facilities. Beginning in 1999, 10% of the VOI/TIS grant awards could be used for expenses associated with implementing a comprehensive program of substance abuse testing, sanctions, and treatment.

New Hampshire is utilizing these funds to support two programs in the State awarded to the New Hampshire Department of Corrections for the purpose of implementing a comprehensive program of substance abuse testing, sanctions, and treatment. Specifically, this agency will add additional staff, staff development and training, equipment and software, program supplies, and expansion of drug identification and testing capabilities.

The majority of the VOI/TIS award was sub granted to the Division for Juvenile Justice Services, to fund the design and construction of a 144 bed architecturally secure juvenile facility on the grounds of the Youth Development Center in Manchester.

NATIONAL CRIMINAL HISTORY IMPROVEMENT PROGRAM

FY 2000 Funds: \$381,073

FY 2001 Funds: \$407,462

FY 2002 Funds: \$476,996

FY 2003 Funds: \$600,000

The National Criminal History Improvement Program (NCHIP) implements the grant provisions of the Brady Handgun Violence Prevention Act and the National Child Protection Act of 1993, and those provisions of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, and Violent Crime Control and Law Enforcement Act of 1994 which pertain to the establishment, maintenance, or use of criminal history records and criminal record systems. The program is administered to States by the Bureau of Justice Statistics, Office of Justice Programs, U.S. Department of Justice. The Department of Justice was directed by the Governor to submit an application and administer the program to the State. The NCHIP grant program goal is to improve the nation's public safety by: a) facilitating the accurate and timely identification of persons who are ineligible to purchase a firearm; b) ensuring that persons with responsibility for child care, elder care, or care of the disabled do not have disqualifying criminal records; and c) enhancing the quality, completeness and accessibility of the nation's criminal history record systems.

New Hampshire's NCHIP grant program has focused primarily on improving the State's Criminal History Record Information System (CHRI), facilitating participation in the National Crime Information Center's Interstate Identification Index System, and establishing the Interstate Automated Fingerprint Identification System. More specifically, the initial grant funds have been used for the creation of the Tri-State (Maine, New Hampshire and Vermont) Automated Fingerprint Identification System (AFIS) and for the hardware, software and system management necessary to effect the required communication between the police departments, courts and central repository. Supplemental grant funds were used to acquire Printrak LSS 2000 Livescan Units, utilized in capturing and storing fingerprint images and data in conjunction with the Tri-State AFIS system, for computer network hardware and software assets, and for additional staffing at both State Police and the Courts. Additionally, grant funds provided under the Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program have been expended on this project to assist in upgrading State Police communications equipment, preparing for the new technology and integrating the judiciary, corrections, and prosecutors into the CHRI system.

Most recently, these funds have been used to enhance the computer capabilities of the New Hampshire State Police, Administrative Office of the Courts, and the Department of Corrections. Significant computer projects at the Administrative Office of the Courts and the Department of Corrections are ongoing at this time.

STATE JUSTICE STATISTICS PROGRAM FOR STATISTICAL ANALYSIS CENTERS

FY 2000 Funds: \$99,526

FY 2001 Funds: \$49,780

FY 2003 Funds: \$69,664

The Bureau of Justice Statistics, Office of Justice Programs, U.S. Department of Justice is specifically authorized by statute (42 U.S.C. 3732) to provide assistance in the development of State and local government justice information systems, and directed to give primary emphasis to the problems of State and local justice systems (42 U.S.C. 3731). The Bureau of Justice Statistics works in cooperation with the States through a network of Statistical Analysis Centers (SAC). These SACs were established with support from Bureau of Justice Statistics and its predecessor agency, the National Criminal Justice Information and Statistics Service.

The more specific purpose of this grant program is to provide financial and technical assistance to State governments to encourage the development of State capabilities for the collection, analysis, and dissemination of criminal justice statistical information. The New Hampshire Department of Justice has designated these funds for a SAC program, wherein these funds have been used to support work on grant related statistical analysis data. Some examples of SAC projects are: the collection of child fatality statistics, the development of an omnibus form for the collection of victim service information, an eleven-year study on DWI plea bargaining in the State, an analysis of arrests by age and sex in the State, compilation of statistics on witness fees by courts and police departments, enhancement of the Department of Justice Webpage, and the evaluation of several grant programs supported by the Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program, i.e. Department of Corrections Laboratory Enhancement and the State Police Forensic Laboratory Enhancement.

In FY 2000 and FY 2001, the NH SAC, contracted with Northern New England Consortium for the Study of the Prevention and Control of Crime and the Survey Center (hereinafter "Justiceworks") at the University of New Hampshire to undertake the New Hampshire Crime Victimization Survey as well as the development of a Data Map and Flow Chart of the New Hampshire Criminal Justice System. Justiceworks is a research and evaluation partner to criminal justice professionals in Vermont, Maine and New Hampshire, and is located in the Institute for Policy and Social Science Research at the University of New Hampshire. It represents a broad group of researchers, state planners, policy makers, and professionals in the criminal justice systems of the Tri-State area.

In FY 2003, the NH SAC again contracted with Justiceworks, to develop user-friendly data applications for the New Hampshire law enforcement and public safety communities, which demonstrate the utility of data collected in the National Incident Based Reporting System ("NIBRS").

STATE DOMESTIC PREPAREDNESS EQUIPMENT PROGRAM

FY 1999 Funds: \$ 387,000

FY 2001 Funds: \$1,020,000 (Combined with FY 2000)

FY 2002 Funds: \$3,187,000

The State Domestic Preparedness Equipment Program is a formula grant program administered by the Office for Domestic Preparedness, Office of Justice Programs, U.S. Department of Justice. It is designed to provide funding to states in the area of domestic preparedness equipment. The program will allow states to purchase basic first responder equipment to enhance the capabilities of local jurisdictions and state agencies in mitigating incidents of domestic terrorism throughout the state. The program was authorized under Public Law 105-277, the U.S. Departments of Commerce, Justice, and State; the Judiciary; and related Agencies Appropriations Act of 1999. The Department of Justice is the designated state administrative agency for this program, with the New Hampshire Anti-Terrorism Task Force exercising policy and allocation oversight of the program.

The original selection of allowable items for this grant program has grown significantly over the years that it has been in existence. What began as an extremely limited program has developed into one that is now significantly more useful. There have also been great changes in the overall administration of the program as are reflected in its' shift from the Federal Department of Justice to the, then, new Department of Homeland Security. This shift at the federal level prompted the new State administration to transfer responsibility for the program to the New Hampshire Department of Safety and to remove the New Hampshire Anti-Terrorism Task Force from its' oversight position.

The New Hampshire Department of Justice has already funded Personal Protective Equipment for law enforcement, fire, and emergency medical services, biological and chemical detection equipment for Hazardous Materials Teams, decontamination equipment for Hazardous Materials Teams, and bomb disposal equipment for the State Police Bomb Squad and the Nashua Police Bomb Squad under the combined fiscal years 1999 to 2002 program. In addition, the New Hampshire Department of Justice is now working with the Department of Safety to coordinate the delivery of the remaining fiscal year 1999-2002 funding with the fiscal years 2003 and 2004 funding. Both agencies, having worked together since the 1999 program inception, continue to pool their resources and coordinate their activities to ensure that New Hampshire's first responders are provided for. This is still evident as the New Hampshire Department of Justice is currently funding a number of new funding requests made under the fiscal year 2003 request for proposal process to the Department of Safety.

Please refer to Appendix E for a complete list of sub-grant awards for federal fiscal years 1999 – 2002.

NATIONAL FORENSIC SCIENCE IMPROVEMENT ACT GRANT

FY 2002 Funds: \$29,178

FY 2003 Funds: \$29,805

The Paul Coverdell National Forensic Sciences Improvement Act was created by Public Law 106-561 on December 21, 2000. It was designed to improve the quality, timeliness, and credibility of forensic science services for criminal justice purposes, and for other purposes. It received initial funding when President Bush signed the Omnibus Consolidated Appropriations Act of 2002 on November 28, 2001, covering the Department of Justice's programs for Fiscal Year (FY) 2002.

The Coverdell program allows for the funding of:

- Laboratory and Computer Equipment
- Supplies
- Personnel
- Facilities
- Accreditation and Certification
- Education and Training

Funding is available to established forensic science laboratories or laboratory systems that employ one or more full-time scientists or the Office of the Chief Medical Examiner. In order to qualify, either of those agencies must employ generally accepted practices and procedures and be either accredited by the American Society of Crime Laboratory Directors-Laboratory Accreditation Board, the National Association of Medical Examiners, or some other appropriate board, or they must submit paperwork to become accredited within two years of being funded under this program.

In preparing for the initial round of funding, a meeting of forensic services providers, law enforcement personnel, victim's advocates, prosecutors, and others was convened to determine the best use of these funds. It was determined that the New Hampshire State Police Crime Laboratory and the Office of the Chief Medical Examiner would each receive funding. The State Police Crime Laboratory was awarded funding to provide for the cost of the Accreditation process application. The Office of the Chief Medical Examiner was awarded funding for a part time staff position to work on both the accreditation process and to eliminate case backlogs.

The second year of funding has been awarded to the New Hampshire State Police Forensic Crime Laboratory, where it will be used to enhance the security of the facility. This will have a twofold effect of providing better accountability of forensic evidence and ensuring that the laboratory meets national accreditation standards.

PROJECT SAFE NEIGHBORHOODS

FY 2003 Funds: \$285,000

FY 2004 Funds: \$232,197

Project Safe Neighborhoods Formula Grant Program (“PSN”) is authorized by the FY 2003 Consolidated Appropriations Act (Public Law 108-7), PSN is a comprehensive approach to combating illegal attempts, by convicted felons, to purchase or attempt to purchase guns by linking together local, state, and federal law enforcement officials, prosecutors, and community leaders to implement a multi-faceted strategy to deter and punish gun violence from all sides. The effectiveness of this program is based on the ability of federal, state, and local agencies to cooperate in a unified offensive.

The Bureau of Justice Assistance, Office of Justice Programs, U.S. Department of Justice is designated to administer this grant to the states. The United States Attorney for the District of New Hampshire has requested that the New Hampshire Department of Justice act as the fiscal agent for this grant program.

Each state’s allocation under the PSN Grant Program is determined by a formula based on the population of each USA’s district. New Hampshire’s 2003 allocation is \$285,000.

HELP AMERICA VOTE ACT OF 2002

FY 2004 Funds: \$120,736

FY 2005 Funds: \$127,443

Public Law 107-252, 107th Congress, established The Help America Vote Act of 2002. A program to provide funds to States to replace punch card voting systems, to establish the Election Assistance Commission to assist in the administration of Federal elections and to otherwise provide assistance with the administration of certain Federal election laws and programs, to establish minimum election administration standards for States and units of local government with responsibility for the administration of Federal elections, and for other purposes.

The New Hampshire Department of State received authorization from RSA 5:6-d to collect and distribute funds to help New Hampshire meet the requirements of the Help America Vote Act. In meeting their obligations under the act, the Department of State has requested the Department of Justice assistance in such areas as: the implementation of a statewide database of voters; assistance to voters with disabilities; training and monitoring local election officials; and, the establishment of an administrative complaint procedure.

LOCAL LAW ENFORCEMENT BLOCK GRANTS PROGRAM

FY 2001 State Award: \$274,999

FY 2002 State Award: \$257,162

FY 2003 State Award: \$268,230

The Local Law Enforcement Block Grants (LLEBG) Program was created in the Omnibus Fiscal Year 1996 Appropriations Act (Public Law 104-134). The Act authorized the Director of the Bureau of Justice Assistance to make funds available to units of general-purpose local government for the purposes of implementing projects to reduce crime and improve public safety. The program is administered by the Bureau of Justice Assistance, U.S. Department of Justice.

By Statute, allowable expenditures may include: the paying of overtime or hiring, training, and employing of additional law enforcement officers and necessary support personnel, procuring equipment, enhancing security measures in and around any facility that is considered to have special risk, drug courts, enhancing the adjudication process of cases involving violent offenders, establishing a multi jurisdictional task force to prevent and control crime, establishing crime prevention programs involving cooperation between community residents and law enforcement personnel, and paying for costs of indemnification insurance for law enforcement officers.

A portion of the overall state LLEBG award is made directly from the Bureau of Justice Assistance to eligible local units of government. Those awards to units of general-purpose local government are determined by BJA based upon the jurisdictions' average annual number of Part I violent crimes (murder, rape, robbery, and aggravated assault) compared with other local jurisdictions within the State for the three most recent calendar years. Allocation of those funds is determined by BJA directly. The legislation requires each direct award recipient establish an advisory board and hold at least one public hearing prior to the expenditure of program funds.

The remainder of the State's LLEBG allocation is awarded directly to the State. The Department of Justice was designated by the Governor to be the State Administrative Agency for this program. The State has the option of distributing the funds among State agencies that provide criminal justice services, directly or indirectly, to units of general-purpose local government and/or to units of general-purpose local government that did not receive a direct award from BJA. The most recent subgrants have been given to local police departments to purchase computer hardware and software to assist them in reporting National Incident Based Reporting System (NIBRS) data to the States' central repository at the New Hampshire Department of Safety. The previously funded projects of enhancing the testing capabilities at the State Public Health Laboratory for such things as Anthrax and the creation of a Terrorism Training Specialist at the Police Standards and Training Council have completed their funding cycle, but the products of those two awards remain.

Please refer to Appendix F for a complete list of subgrant awards for federal fiscal years 2000 – 2003.

BULLETPROOF VEST PARTNERSHIP PROGRAM

FY 2000 State Funding: \$16,809

FY 2001 State Funding: \$15,102

FY 2002 State Funding: \$27,487

The Bulletproof Vest Partnership (BVP) program is a discretionary program administered by the Bureau of Justice Assistance, Office of Justice Programs, U. S. Department of Justice. It was authorized under the Bulletproof Vest Partnership Grant Act of 1998, which was signed into law on June 16, 1998 as Public Law 105-181. The purpose of the Act is to save the lives of law enforcement officers by helping States and units of local government and tribal governments equip their law enforcement officers with ballistic vests. The program is designed to provide up to 50% funding towards the purchase of ballistic vests for law enforcement personnel. The Department of Justice is the State Administrative Agency for this program, and as such, administers the program for state agencies. Local jurisdictions are able to apply for funding through the Bureau of Justice Assistance directly.

Most recently under this program, priorities have shifted to giving preference to jurisdictions with populations under 100,000. Due to diminishing state awards, it is uncertain if this program will continue to be offered to States' in the future. State agencies that have benefited from this program include the NH State Police, NH Fish and Game, NH Dept. of Resources and Economic Development, and the NH Dept. of Corrections. Additional agencies benefiting from this program have included the Plymouth State College Police Department and the University of New Hampshire Police Department.

Due to the increased demand for these funds and the shift in priority to jurisdictions under 100,000, New Hampshire did not receive any state agency funding for 2003.

RURAL DOMESTIC VIOLENCE AND CHILD VICTIMIZATION ENFORCEMENT GRANT PROGRAM

FY 2000 Funds: \$386,448

FY 2002 Funds: \$499,039

The Rural Domestic Violence and Child Victimization Enforcement Grant Program (42 U.S.C. §13971) implements certain provisions of the Violence Against Women Act, which was enacted in September 1994 as Title IV of the Violent Crime Control and Law Enforcement Act of 1994. This grant program is administered to States through the Violence Against Women Grants Office, Office of Justice Programs, U.S. Department of Justice. The New Hampshire Department of Justice serves as applicant and fiscal agent for these grant funds, however the actual administration of this grant program will be a collaborative effort between the Department of Justice, the New Hampshire Coalition Against Domestic and Sexual Violence, Division for Children, Youth and Families and the Commission on the Status of Women. This is the fourth time this discretionary grant, awarded on a competitive basis by the Violence Against Women Grant Office, has been received by this state.

With the grant funds and through collaboration between the New Hampshire agencies listed above, five domestic violence program specialists have been hired and placed in the State's four most rural counties – Carroll, Coos, Grafton and Sullivan. Each of the DV program specialists spend half of their time in the local crisis center and the other half in the local district office of DCYF. They collaborate with child protective service workers and assist in assessing and coordinating services where domestic violence is occurring in DCYF's child abuse/neglect cases. In addition, the project has launched a public awareness and education/training campaign in the local communities with one of the goals being to reach those victims who are isolated and unaware of the services, which may be available to them.

FY 2001 Funds: \$124,313

A second grant from this program has been utilized by the Whole Village Family Resource Center in Plymouth, NH to establish a supervised visitation center in Grafton County to help protect victims of domestic violence and their children. The Plymouth visitation center, Brian's House, offers victims and their children a safe, supervised place for visitation by non-custodial parents, monitored custodial exchanges, and parent education. Most of these of these services are provided under court order. This is the second time this discretionary grant, awarded on a competitive basis by the Violence Against Women Grant Office, has been received by this state.

SAFE HAVENS: SUPERVISED VISITATION AND SAFE EXCHANGE GRANT PROGRAM

FY 2002 Funds: \$745,031

The Safe Havens Grant Program implements certain provisions of the Violence Against Women Act, which was enacted in 1994 by Title IV of the Violent Crime Control and Law Enforcement Act of 1994, Pub. L. No. 103-322; the Violence Against Women Act of 2000, enacted as Division B of the Victims of Trafficking and Violence Protection Act of 2000, Pub. L. No. 106-386. This grant program is administered to States through the Violence Against Women Grant Office, Office of Justice Programs, U.S. Department of Justice. The Department of Justice serves as applicant and fiscal agent for these grant funds. This is a discretionary grant awarded on a competitive basis by the Violence Against Women Grant Office.

This grant program is designed to create safe places for visitation with and exchange of children in cases of domestic violence, child abuse, sexual assault or stalking. Most of these services are provided under court order.

New Hampshire was awarded this two-year grant in October 2002. Five family visitation centers in New Hampshire and a sixth located in White River Junction, VT are currently serving NH, working collaboratively under the consortium known as the *Family Visitation and Access Cooperative*. While they share many challenges, they all share a great need for increased capacity, greater security, enhanced services to underserved populations and staff training. This project addresses the most pressing needs of the five existing centers and starts a sixth center in this State's second largest city, Nashua. The funding for these centers allow more opportunities for victim families to heal, creates a safer environment for visits and exchanges to take place in and allows more options for judges dealing with custody issues in domestic violence cases.

Merrimack County Visitation Center	\$ 76,166
Brian's House	\$145,092
Emerge Family Advocates	\$135,215
Salem Family Visitation Center	\$101,154
Greater Nashua Supervised Visitation Center	\$148,553
All 'R' Kids Supervised Visitation Center	\$151,374

CONGRESSIONAL EARMARK

FY 2003 State Funds: \$1,987,000

This Congressional Earmark was given to the State of New Hampshire to be used to establish a statewide distance-learning network using the Primedia Work-Place Learning (PWPL) satellite based training system. New Hampshire was one of only two states in the country to be given the opportunity to institute this program statewide. Through this program New Hampshire was able to provide for the installation of one of the three core channels of the PWPL 'Homeland One' system. Those three channels consist of the Law Enforcement Training Network (LETN), the Fire and Emergency Training Network (FETN), and the Health and Science Television Network (HSTN). Through this program each police department, fire department, emergency medical service, private emergency medical service, and acute care hospital was given the choice of having one of those three PWPL programs installed.

To implement the program, New Hampshire negotiated a contract with the Congressional directed recipient of the funding, PWPL, then provided them with a list of approximately 607 install locations. Under the NH contract, each install site will receive one of those program channels for a period of one year from the time of install. In addition, New Hampshire will have the opportunity of providing content to the satellite system that may be specifically directed at New Hampshire receivers or may be broadcast nationwide. New Hampshire subscribers may also create a 'tape library' of programming from the system, which is something that is only permissible for New Hampshire subscribers under the State contract.

In addition to the local service, New Hampshire will also be using a small portion of these funds to create two additional interactive training centers in the State. These additional centers will enhance the one already established in Littleton, NH, by allowing law enforcement and/or fire and emergency medical services personnel, to attend training closer to their respective communities while still being able to interact on a 'real-time' basis with an instructor in Concord. The Police Standards & Training Council and the Fire Standards and Training have broadcast equipment in their Concord academies that will allow them to transmit classes being held in either Concord academy to any of these remote learning centers in such a manner so as to permit live interaction between instructors and students in Concord and students in the remote centers.

The State of New Hampshire is excited to be able to test this enhanced capability for the duration of this grant period. Additionally, the equipment purchased to establish the remote learning centers will remain with the state beyond the period of this grant, thus giving the state this enhanced capability in perpetuity.

NEW HAMPSHIRE VICTIM WITNESS GRANTS

FY 2000 State Funds: \$183,000

FY 2001 State Funds: \$185,820

FY 2002 State Funds: \$231,075

This is a State grant program authorized by the State Legislature in 1988 (RSA 21- M:8-e) to allow the Attorney General to make grants from the victims' assistance fund, for the establishment and maintenance of victim assistance programs. The victims' assistance fund is supported by penalty assessments and fines paid to the State. The grant fund dollars are used to create positions for Victim Witness Advocates in rural County Attorneys' Offices. The fund also supports the Americorps Victim Assistance Program (AVAP), which provides District Court Victim Witness Advocates to many areas across the state.

The goal of the Victim/Witness Assistance Program is to reduce the emotional, financial and physical impact of criminal victimization, to prevent further victimization by the criminal justice system, and to assist victims and witnesses with problems that result from their victimization. The Victim/Witness Assistance Coordinator in each County Attorney's Office has the primary responsibility to direct information and service referrals to victims and to ensure that the goals of the program are realized. Please refer to Appendix G for a complete list of subgrant awards for federal fiscal years 2000 – 2002.
